

AI SERVICE OPERATIONS & OPERATING INTEGRATION

Operator-technologist turning emerging technology into adopted, measurable work

Pittsburgh, PA - actively relocating to Tampa Bay | 412.287.8640 | russelldudek@gmail.com
linkedin.com/in/russelldudek | https://russelldudek.github.io/XTIUM/

Executive Profile

Builds operating mechanisms across customer operations, service and support workflows, technical delivery and AI-enabled work. Strongest where platforms, teams, evidence and human judgment must become one repeatable operating system.

ROLE-ALIGNED CAPABILITIES

Post-merger operating integration | AI-enabled service workflows | Service-desk and support operations | Standard work and escalation | Human-in-the-loop design | Operational telemetry | Customer deployment playbooks | Lean / Gemba / Six Sigma

SELECTED EXPERIENCE

Vape-Jet - Director of Operations

2025-Present

- Leads AI-first operating transformation across production, purchasing, quality, customer success, support, engineering issue flow, ERP/Odoo, Jira, HubSpot, Slack, telemetry and AI-assisted workflows.
- Connects factory, field, customer and machine-fleet signals into prioritized work, earlier risk detection, cleaner handoffs, dashboards, standard work, training and accountability.
- Works in a software-enabled robotics and machine-vision environment with approximately 1,000 fielded robots informing support and operating feedback loops.

DudeWorth - Founder / AI and Automation Advisor

2017-Present

- Develops AI-readiness and opportunity frameworks spanning value, feasibility, data readiness, governance, adoption burden, reuse and time-to-value.
- Designs agentic workflow patterns using structured context, retrieval, AI agents, human judgment, escalation, decision records, evaluation and governance rails.

Amazon - Operations Management / Site Leader

2014-2018

- Led launch and execution for Amazon Prime Pittsburgh in a 24/7 customer-backward environment supporting approximately five million second-day orders annually.
- Built leadership routines, labor planning, throughput visibility, escalation paths, standard work and operating mechanisms.
- Applied Lean and Gemba across safety, quality, throughput, customer experience and team engagement.

Compunetics - Director of Operations and Engineering Management

2000-2013

- Led engineering, manufacturing, quality, customer delivery and complex technical programs in advanced electronics and high-reliability environments.
- Built quality systems, standard work, root-cause practices, performance measures and process controls.

XTIUM transfer thesis

Run an AI-enabled workflow inside the operating system; leave behind a service definition that can be securely adapted, measured and owned in a customer environment.

AI SERVICE OPERATIONS & OPERATING INTEGRATION

Additional operating depth, technical foundation and credentials

Pittsburgh, PA - actively relocating to Tampa Bay | 412.287.8640 | russelldudek@gmail.com
linkedin.com/in/russelldudek | <https://russelldudek.github.io/XTIUM/>

COMPUNETICS - EXTENDED EVIDENCE | 2000-2013

- Progressed through R&D program management, production management, strategic acquisition, operations management and director-level leadership.
- Collaborated with high-consequence customers and partners including DoD, CERN, Intel and AMD.
- Published industry articles, delivered technical talks and participated in the HyperTransport Consortium.

CARDINAL BUILDING PRODUCTS - REGIONAL DIRECTOR | 2021-2023

- Built the company's first remote regional operation.
- Modernized distributed customer, CRM, commercial, fulfillment, logistics, digital-marketing and online-buying workflows.

ZEUSVU - CHIEF PILOT, AUTONOMOUS SYSTEMS AND AERIAL DATA OPERATIONS | 2018-2022

- Led regulated drone operations across medical, energy, logistics, real-estate and restricted-airspace contexts with a 100% safety record and no FAA incidents.
- Developed TensorFlow-based concepts for automated aerial inventory and computer-vision-enabled field intelligence.
- Designed medical drone delivery and chain-of-custody concepts connecting technology, risk, stakeholders and governed execution.

OPERATING MECHANISMS BROUGHT TO XTIUM

- Make customer promises, workflow triggers, decision rights and exception ownership visible.
- Separate AI recommendation, approved automation and consequential human authority.
- Use telemetry to distinguish faster work from better outcomes and to identify repeatable patterns.
- Translate internal proof into customer prerequisites, controls, adoption assets and review cadence.

EDUCATION AND CREDENTIALS

University of Pittsburgh - Bachelor of Science. Academic grounding includes materials science, physical chemistry and biology-related studies.
Google AI Essentials | IBM Enterprise Design Thinking Practitioner | Six Sigma Certification | OSHA 10

TECHNICAL TOOLKIT

Agentic AI | LLM workflows | RAG patterns | Human-in-the-loop design | Python | SQL | JavaScript | TensorFlow | Tableau | ERP/Odoo | Jira | Confluence | HubSpot | Slack | GIS and mapping workflows

LOCATION AND HONEST TRANSFERABILITY

Currently based in Pittsburgh and actively relocating to the Tampa Bay area. Russell has not held a senior operating role inside a global MSP. The transfer case is adjacent operating-mechanism depth across 24/7 customer operations, AI-enabled support and service workflows, high-reliability technology, standard work, escalation and post-launch learning.
